

5625 PROPANE-POWERED RIDE-ON SCRAPER

FEATURES

Different from scrapers that are powered using a hydrostat drive system, the 5625 offers the speed and power of a hydraulic drive. Consistent torque sets the operational standard for high removal rates, and each machine undergoes a rigorous quality assurance program including emissions certification.

- E. Quick-change swivel head
- F. Dual-lift, hydraulic slide-plate with hand control for precise angling and pitch for continuous contact
- G. Larger/deepened forklift pockets
